SUMMARY

Business Analyst with 2 years of experience in banking and FinTech environments, delivering end-to-end BA artifacts across core banking, CMS, and financial reporting implementations. Proven in requirements elicitation, BRD/FRD documentation, and UAT facilitation across Agile/Scrum delivery cycles. Technically grounded in Oracle DB, SOAP/REST API validation, and XML integration.

CORE COMPETENCIES

Business Analysis: Requirements Elicitation | BRD | FRD | SRS | User Stories | Acceptance Criteria | AS-IS/TO-BE Analysis | BPMN Process Modeling | UAT Planning & Facilitation | Gap Analysis | Change Request Management | Stakeholder Communication
Tools: Jira | Confluence | Lucidchart | MS Visio | SoapUI | Postman | MS Excel | Git
Data & Integration: Oracle DB | SQL (Data Validation) | SOAP API | REST API | XML | JSON
Technical: HTML | CSS | JavaScript | React.js
Methodologies: Agile | Scrum | SDLC

WORK EXPERIENCE

Business Analyst (Associate Application Analyst) 05/2024 – 06/2026
Data Edge Limited Dhaka, Bangladesh

- Elicited and documented business and functional requirements for Card Management System (CMS) and financial reporting solutions, producing BRD and FRD documents that guided development, testing, and deployment throughout the SDLC.
- Translated banking workflows into user stories, acceptance criteria, and AS IS/TO BE process diagrams, supporting on time delivery across 3 multi phase client deployments.
- Validated Oracle DB outputs and SOAP/XML API payloads using SoapUI during data migration cycles; identified and resolved 15+ pre UAT discrepancies, preventing post deployment defects.
- Facilitated UAT across 3 deployment phases; managed the full defect lifecycle in Jira and coordinated stakeholder sign off achieving zero critical post deployment issues across all releases.
- Performed gap analysis and root cause investigation on financial reporting anomalies; documented structured corrective action plans resolved within client SLA windows.

PROJECTS

Banking Systems 2024
Requirements & Integration Analysis

- Produced BRDs and BPMN process diagrams for core banking CMS and financial reporting modules, serving as the primary delivery reference across multi-phase cycles. Validated XML/SOAP API payloads and Oracle DB transaction outputs across 3 client rollouts.

Medical Appointment Booking Application 2025

- Gathered and documented functional requirements for core booking workflows patient scheduling, appointment confirmation, and cancellation mapping end-to-end process flows using AS-IS/TO-BE diagrams.
- Identified 3 validation gaps in form routing and submission logic through workflow analysis; documented findings and coordinated with the development team for resolution.

EDUCATION

Bachelor of Science in Computer Science and Engineering 2018 – 2023
BRAC University
CGPA: 3.06
